**Subject:** Please Re-evaluate Section 404 Permit for Vigneto Development

Dear Chief Diebolt and Mr. Miller,

I am requesting that you please re-evaluate the Section 404 permit for the Villages at Vigneto proposed development near Benson, Arizona. It was approved under different conditions and when it was a different plan. It did not make sense then and it makes even less sense now. Tucson Audubon Society and other groups have already expressed in detail the myriad reasons that this plan is cause for serious concern.

Please initiate consultation with the USFWS to quantify potential impact of this development to threatened and endangered species and ensure commitments to adequate conservation and mitigation measures.

Thank you for your consideration,  
Kimberlyn Drew
